SUBJECT:

Mayor Brian Williams and I met with representatives of the YMCA of Metropolitan Chattanooga (Baron Herdelin-Doherty, President & CEO, Charles McCallie, Chief Development Officer, and Kathy Teufel, District VP-Hamilton County) in mid-October 2024 regarding a potential partnership opportunity with the YMCA and the City of East Ridge.

Mayor Williams and I met again with the YMCA representatives at the end of November 2024 to further discussions in reference to a potential presence of the YMCA in Camp Jordan Park. Attached hereto please find a copy of the proposal from Triangle 2 Solutions on the preparation of a feasibility study to determine the viability of building a new YMCA facility in East Ridge (Camp Jordan Park). The cost of the study is \$21,500; and the shared cost ratio proposed by the YMCA would be 1/3 YMCA (\$7,167) and 2/3 City (\$14,333).

Mr. Baron Herdelin-Doherty and a representative from Triangle 2 Solutions will be present at the January 23rd Council meeting to present a proposal for a feasibility study to be completed by Triangle 2 Solutions to ascertain whether there is a viable market for a YMCA to be located in Camp Jordan Park.

Project Overview

The YMCA of Metropolitan Chattanooga is seeking market data to determine the feasibility of creating a new facility at East Ridge.

The data from the market study will be used for the following purposes:

- ❖ To determine the gaps in health and recreation services currently in the community
- ❖ To test the market perceptions of the property the Y is considering purchasing
- ❖ To provide relative interest in major facility features and programs (what will most drive demand)
- ❖ To determine the range of membership fees residents are willing to pay
- ❖ To project the number of members and program participants the center can expect at the location

Deliverables

Report will include:

- ✦ **Demand:** What is the level of demand for programs and services in the area?
- ✦ **Competition:** Who are the current providers of program and services?
- ✦ **Membership:** Project the number of adult and family membership units the YMCA can expect and the impact on current member retention.
- ✦ **Pricing:** What is the appropriate pricing policy?
- ✦ **Target Population:** How can the households or population anticipate to benefit by the project?
- ✦ **Type of Use:** What are the types of venues, amenities, design features, etc. are most in demand?

Methodology & Scope of Work

Triangle2 Solutions recommends a sample size of 400 completed, useable phone interviews, allowing for a statistically valid sample size. This sample will be representative of the service areas by age, income and family status. Triangle2 will purchase lists for the potential service area, and after interviews are completed will geocode each respondent. We will use screening questions to identify any populations within the community that may not be likely members, thank them and disqualify them from the survey (not counted as a useable complete).

We use a computer-assisted dialing system that shows the local area code on caller-id and will attempt each number no more than 3 times.

In addition to the phone survey, T2 recommends an email survey for distribution to all members and previous members with a goal of 400 completed. This data will be reported separately and focus on the current and preferred member experience. Also, individual interviews with high-level stake holders or potential partners or investors can be completed if needed.

A comprehensive demographic, psychographic and traffic study will be completed, including Primary Market Analyses.

Process & Timeline

Total Project Time: 8-10 weeks

Project Plan & Fees

Deliverables Professional Fees

2	Mapping of all current members and program participants	Included above

Administrator of Economic & Community Development

SUBJECT: Approval of Consent Letter Authorizing the City of East Ridge to Commit 20% (Local Portion) of Construction Costs for Scruggs Road Reconstruction

On November 6, 2024, the City's administration team received correspondence from the Chattanooga Metropolitan Planning Organization (MPO) inviting local municipalities to apply for Surface Transportation Block Program funding (STBG-M) under the FY2026–FY2029 Transportation Improvement Plan (TIP). The annual allocation for STBG-M funds exceeds \$6.9 million, with a total of approximately \$27 million available over the program's duration for local roadway improvements, including the Scruggs Road reconstruction.

After thorough evaluation of East Ridge roadways, Scruggs Road was identified as a priority for reconstruction from SR-41 (Ringgold Road) to the Georgia state line. The designated portion of the roadway covers approximately 787.85 linear feet, and Asa Engineering has provided a construction cost estimate of \$523,238.00, detailed as follows:

Estimated Project Costs

- Construction Engineering & Inspection (CEI) (10%) – \$43,395.00 (per TDOT Chapter 8 requirements)
- Total Construction Cost (Including CEI) – \$477,344.00
- Feasibility/Planning (1%) – \$4,339.00
- Preliminary Engineering (PE) NEPA (3%) – \$13,018.00 (Survey, Preliminary Design, CE NEPA)
- PE Design (6%) – \$26,037.00
- Right-of-Way (ROW) Plans & Review – \$2,500.00 (No ROW acquisition required)

Total Estimated Cost: \$523,238.00

The proposed construction includes:

- Milling and resurfacing 300 feet of Scruggs Road from Ringgold Road southward, where the pavement remains in generally good condition.
- Full-depth removal and replacement of 500 feet of roadway from 300 feet south of Ringgold Road to the Georgia state line due to subgrade and base failures. This will require:
 - 10 inches of base stone
 - 5 inches of pavement
 - Replacement of the cross drain with a double line of 36-inch pipes
 - Reconstruction of the area inlet/junction box
 - Addition of a new curb inlet on the west side of Scruggs Road at the outfall.

Given the current roadway conditions and drainage failures, these improvements are necessary for both safety and infrastructure longevity.

City Administration seeks your approval to commit \$104,647.60 (20% of total project costs) as the local funding portion for this project. Any cost overruns beyond the estimated amount will be the City's responsibility.

Thank you for your time and consideration.

RESOLUTION NO. 3643

A RESOLUTION OF THE EAST RIDGE CITY COUNCIL APPROVING A CONSENT LETTER AUTHORIZING THE CITY MANAGER TO COMMIT A LOCAL PORTION MATCH FOR CONSTRUCTION COST FOR THE SCRUGGS ROAD RECONSTRUCTION PROJECT

WHEREAS, the Chattanooga Metropolitan Planning Organization (“MPO”) is inviting local municipalities to apply for Surface Transportation Block Program funding (STBG-M) under the FY2026–FY2029 Transportation Improvement Plan (TIP).

WHEREAS, the City of East Ridge desires to use the funding, if awarded, for the reconstruction of Scruggs Road; and

WHEREAS, the City of East Ridge is eligible to receive a 80/20% matching grant for the TIP Scruggs Road Reconstruction Project for a total estimated cost of \$523,238.00; and

WHEREAS, the City will be responsible for a 20% match in the amount of \$104,647.60.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF EAST RIDGE, TENNESSEE, approving a consent letter authorizing the city manager to commit a 20% local portion match for construction cost for the Scruggs road reconstruction project.

BE IT FURTHER RESOLVED that the City of East Ridge agrees to provide the matching amount of \$104,647.60.

BE IT FURTHER RESOLVED that this Resolution shall take effect immediately after its passage, the public welfare of the City requiring it.

**Public Entity Partners
FY25 Cyber Security Grant**

January 23, 2025

Submitted by:

Cameron McAllister

Administrator of Economic & Community Development

SUBJECT: Approval of FY245 PEP Cyber Security Grant

City Administration is asking for the approval from the Mayor and Council to accept the grant award from Public Entity Partners for the FY25 Cyber Security Grant program. The City applied for the Cyber Security grant in November 2024 and received notification of the award in early January 2025. Public Entity Partners awarded the City \$2,000. However, Public Entity Partners will require the City to spend at least \$4,000 before reimbursing the 50% share.

The grant funds will be utilized to conduct a thorough internal and external vulnerability scan of the City's network infrastructure. The City's IT department plans to utilize the abovementioned service to identify potential security weaknesses and vulnerabilities across both internal and external network assets, helping mitigate risks and strengthen the City's overall cyber security posture.

The scan will be performed by Litefoot Technology, LLC. The first scan will take place within 30 days after approval and be conducted quarterly for one year. Following the delivery of the comprehensive assessment, Litefoot Technology will provide the City of East Ridge with actionable recommendations to further address and remedy identified vulnerabilities.

The total cost associated with the internal and external vulnerability scans are estimated to be \$3,800.00.

DISCUSSION OF STAFF RECOMMENDATION

<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> See Comments	THE R-O-W PROVIDES EXISTING OR POTENTIAL SERVICE OR ACCESS TO ADJACENT PROPERTIES The right-of-way is open and paved. It provides rear access to multiple commercial buildings that front Ringgold Road and their associated parking lots. It also provides service for delivery and dumpster trucks to access the back of the buildings.
<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> See Comments	THE CLOSURE WILL NOT LAND-LOCK ANY PROPERTY All adjacent properties have frontage along Ringgold Road, Wimberly Lane, or Weldon Drive.
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> See Comments	TOPOGRAPHY, GRADE OR OTHER NATURAL RESOURCES ON SITE There are no steep slopes or floodplain in the right-of-way.

The width of the R.O.W. is 30' wide. There is WWTA sewer in the R.O.W., but it is unclear if any other utilities are present. A sewer easement will need to be provided.

The R.O.W. is currently open to traffic; potential for future use is limited. All adjacent properties have access from either Ringgold Road or Weldon Drive; alternative bypass streets are already available if needed. Parking is provided on-site.

The R.O.W. contains a two lane asphalt street, no curb, and no sidewalk, and the pavement condition appears to be good. The topography/grade does not impede the potential of a right-of-way for vehicles, bicycles, or pedestrians, and the closure and abandonment will not landlock any property.

Due to the location of the street in the overall grid, no replacement should be needed. This R.O.W. provides limited utility. No parcels have their primary frontage along the right-of-way; Ringgold Road provides more direct vehicular and pedestrian access.

Southeast real estate development group Urban Story Ventures is redeveloping "Tennessee's First Shopping Center," which sits on a 13-acre property stretching across both sides of the high-traffic secondary road Ringgold Road. The developer, known for restoring properties that have seen better days and reimagining properties for their highest and best use, has a strategic site plan to transform this up-and-coming high traffic area into a vibrant mixed-use commercial hub. Examples of prospective tenants include regional clothing and household goods retailers, national sports and fitness centers, trending family entertainment complexes, and a variety of restaurants and bars. When identifying infrastructure needs to carry out the vision of breathing new life into the area and bringing in new patrons and businesses, the development team saw real opportunity in converting the use of Old Ringgold Road, a lesser-traveled road that runs parallel to Ringgold Road. The new site plan recommends the City abandon the right of way, as identified in Exhibit F, to convert the street into a promenade, where patrons can shop, eat, drink, and visit the new hub with easy access to new restaurants and retailers in a safe, comfortable, and relaxing environment. Think of streets that are pedestrian and bike friendly, streets that are lined with outdoor patios and shops to draw in locals and visitors, and areas that are activated year-round. The developer envisions collaborating with both the City of East Ridge on identifying areas of opportunity for activation. Abandoning the right of way on Old Ringgold Road in the identified area will be another step forward in revitalizing this new hot spot.
